

THE MOUNTBATTEN SCHOOL

CCX

14 March 2024

Dear Parent/Carer

Student Questionnaire

As you will know, an Ofsted inspection team visited the school in January. In their report you will see some very positive comments about the day-to-day behaviour of our students. As a school, we are never complacent and are part of the Department for Education's Behaviour Hubs programme to share good practice with other schools and develop our positive culture of behaviour even further.

As part of the programme, all schools involved gather the views of students and staff in order to understand how they perceive behaviour in school; they then use the results of the survey to identify areas for improvement. We will be conducting our survey in registration time so that the children will not miss any lessons. Whilst participation is voluntary, we require your consent for your child to take part in the survey.

Responses will be collated in order to prepare a summary of findings (such as the percentage for each response to each question) for the whole school and year group. This summary will be shared within the Behaviour Hub programme so that comparisons with other schools can be made. However, no personal data will be shared and the information will not be used to identify children.

We know that as parents you lead busy lives and so, rather than give you an additional task to complete, we will assume that you give consent. However, if you **do not** give your consent to your child taking part in the questionnaire, please follow the link below and complete by 19 March 2024.
