Dear Parent/Carer

Year 11: Helping Your Child Build a Revision Timetable

We wrote to you just before Easter with a range of support for your child as they approach their exams, including details of our Revision Support Video Library. Each 10-minute clip features a Subject Lead explaining assessment criteria and the most effective revision strategies for Maths, English, and Science, alongside a general revision habits video from our Teaching and Learning team.

We're pleased to share that we've added a new video to the library. One of the things students most commonly find tricky is putting together a revision timetable that actually works for them; and if your child doesn't have one, it can be hard for you to know how to help. Miss Roodt has created a brilliant new video showing both you and your child how to use AI to build a personalised revision timetable quickly and easily.

You can find it using the link above. We hope you find it useful!

Yours sincerely,

Rob Davenport	Amie Jupp	Toby Rogers
Assistant Headteacher	Head of Year 11	Director of School Services
